

THANAPHAT CHIRUTPADATHORN (NORTH)

Senior Engineering Manager · Healthcare Technology

north.thanaphat@gmail.com | +66 94 539 2928 | linkedin.com/in/thanaphat-chirutpadathorn | Bangkok, Thailand

PROFESSIONAL SUMMARY

Senior Engineering Manager with 9 years in software engineering, including 6 years in engineering leadership roles from Tech Lead to Senior Engineering Manager, currently heading a 30+ engineer organization at Invitrace, a healthcare technology company building patient-facing and employee-health mobile platforms and hospital systems. Scaled the engineering organization by 50%, drove ISO 27001/9001 certification, and led an AI-tooling adoption program that grew from a single-team pilot to a 3x organization-wide improvement in deployment frequency. Full-stack background (React, Node.js, AWS) combined with pre-sales and solution consulting experience, comfortable owning both technical strategy and business outcomes.

CORE COMPETENCIES

- **Leadership:** Strategic technology planning · team scaling (30+) · hiring & performance management · mentorship & coaching
- **Delivery & agile:** Scrum (PSM I certified) · Kanban / flow-based delivery · Jira (backlog, boards, delivery reporting) · capacity planning · delivery metrics (deployment frequency, cycle time, predictability)
- **Engineering:** React / React Native / Angular / Next.js · Node.js (Express, NestJS) · C# · RESTful APIs · microservices
- **Infrastructure:** PostgreSQL · MongoDB · Redis · AWS (EC2, RDS, S3) · Docker · CI/CD
- **Security & compliance:** ISO 27001/9001 · penetration testing · risk assessment · release governance
- **AI engineering:** AI-assisted development workflows · developer-tooling adoption & governance · responsible-usage training

WORK EXPERIENCE

Invitrace Company Limited · Bangkok, Thailand

Sep 2024 – Present

Senior Engineering Manager

Jul 2026 – Present

- Promoted to lead the engineering organization end-to-end: 30+ cross-functional engineers delivering secure healthcare technology products, owning hiring strategy, performance management and technical direction.
- Expanded scope to include the hospital internal-systems team, bringing patient-facing apps, employee-health products and hospital back-office systems under a single delivery organization.
- Matured the org-wide AI-assisted development workflow, reaching a 3x improvement in team throughput as measured by deployment frequency and cycle time.
- Completed the organization's transition to a flow-based (Kanban) operating model and established governance frameworks that improved delivery predictability and agility.
- Partner with product and business leadership to align engineering investment with customer value and measurable quality outcomes.

Engineering Manager / Delivery Lead

Aug 2025 – Jun 2026

- Managed engineering delivery across all product teams (a patient-facing mobile app used in hospitals and an employee health & wellness mobile app), with responsibility for hiring, onboarding and performance reviews.
- Ran the delivery workflow hands-on in Jira (backlog, boards and delivery reporting), keeping work visible, accurate and on track for stakeholders.
- Expanded AI developer-tooling adoption from a single-team pilot to the whole organization, pairing the rollout with responsible-usage training and throughput targets.
- Designed and implemented structured QA processes, including test planning and regression coverage, reducing production bugs and improving release stability.
- Initiated the transition to a flow-based (Kanban) delivery model and new governance frameworks to enhance agility; facilitated knowledge-sharing sessions and regular 1:1s to promote continuous learning and career growth.

○ Tech Lead

Sep 2024 – Jul 2025

- Led a cross-functional squad delivering 7+ products centered on Invitrace's employee health & wellness mobile app, aligning technical strategy with business priorities to accelerate delivery.
- Expanded team capacity by 50% through the recruitment and onboarding of 18 members within 3 months.
- Piloted AI developer tools with responsible-usage training, improving developer productivity by ~30% and laying the groundwork for org-wide adoption.
- Achieved ISO 27001/9001 compliance by driving security enhancements, process standardization and documentation alignment.
- Lowered production defects by ~25% by enforcing strict code reviews and improving release governance; reduced design time by 40% through reusable infrastructure templates and standardized environment setups.

iPassion Co., Ltd.

Jul 2018 – Aug 2024

○ Tech Lead & Team Lead

Jun 2023 – Aug 2024

- Led a 30-member team integrating 10 legacy systems into a unified platform for an enterprise client in automotive manufacturing, streamlining data flow and eliminating silos.
- Increased delivery speed and predictability by applying agile practices and conducting regular alignment sessions with stakeholders.
- Monitored project risks and implemented proactive mitigation strategies to ensure consistent delivery.

○ Technical Lead & Technical Solution Consultant (Pre-Sales)

Jul 2020 – May 2023

- Modeled and optimized business processes, identifying automation opportunities that reduced manual work by ~20%; designed databases and technical solutions while advising low-code teams on scalability and performance.
- Built a LINE Bot automating support-issue assignment, cutting manual triage time by ~30%.
- Partnered with sales teams on tailored proposals and demo applications for clients in automotive and finance sectors, accelerating deal closures and reducing post-sale rework by ~20%.

○ Software Developer

Jul 2018 – Jun 2020

- Developed front-end applications (Angular, React) and cross-platform mobile apps (Ionic, React Native) with a 95%+ crash-free rate; integrated APIs with backend systems, reducing user-facing errors by ~20%.

Codediva Co., Ltd.

Jun 2017 – Jul 2018

○ Software Developer

Jun 2017 – Jul 2018

- Developed Android mobile applications and delivered them to clients end-to-end, from development through handover.
- Managed user acceptance testing (UAT) independently, working with client users to validate features, track feedback and resolve issues before release.
- Built Java libraries for POS systems, enabling reliable transaction processing with existing retail infrastructure.

EDUCATION & CERTIFICATIONS

- **Professional Scrum Master I (PSM I)**, Scrum.org
- OutSystems 11: Associate Tech Lead, Security Specialist, Architecture Specialist, Associate Reactive/Traditional Developer
- B.Sc. Media Technology, King Mongkut's University of Technology Thonburi (2017)
- Employee of the Month (Best Pragmatic Value), Invitrace (2025)
